Chemistry Scavenger Hunt

Visit the Chemistry Links page at the Kid Zone to find these sites! Go to http://sciencespot.net/ and click the Kid Zone graphic!

CHEMystery Go to the "Matter" area to find the answers to these questions.	
	and having; it is the material of the
2. There are three main phases of matter: a fourth phase,, but it exists	,, and There is also at very high temperatures.
Science Is Fun 2 Go to the "ChemTime Clock" area to find	-
of Scientists have found over we encounter are made from	are made of Atoms are the smallest different kinds of atoms. The many different materials of these atoms. A material in which all atoms are the erefore, there are over different elements. Each element has
2. Search for information about each element each element.	t on the Chem Time Clock. Use the chemical symbol to identify
Lightest atom	First discovered in the sun
Lightest metal	Beryl, emeralds, and aquamarine
Found in borax	Atomic number of 11
Atomic number of 7	Diamond and graphite
Major component of air	2nd most abundant element on Earth
Used in making toothpaste	Atomic number of 3
An element in table salt	Glows red-orange with electricity
Atomic number of 12	Name from Greek word for sun
Used in "mag" wheels	Most common atom in universe
Atomic number of 9	Found in buckyballs
Used in laundry detergents	Atomic number of 2

Go to the "Atoms & Structure" area to find the answers to these questions. 1. Who developed the idea of electron shells, also called orbital shells? 2. What are the three "pieces" to an atom? _____ ___ ____ Go to the "Atoms & Naming" area to find the answers to these questions. 1. How many chlorine atoms would be in a compound with the name: a. dichloride? ____ b. tetrachloride? _____ c. decachloride? _____ 2. What do you get when you add the following atoms together? a. one carbon and one oxygen? b. one carbon and two oxygen? c. one carbon and four chlorine? **Quia! Chem Games** Choose the "Common Chemicals" game. Play the game to discover the names of these common chemicals: Acetic acid = _____ Sodium bicarbonate = _____ Ascorbic acid = _____ How did you do? Sucrose = _____ o Great Retinol= _____ o Fair o Need practice! Sodium chloride = _____ Acetylsalicylic acid = _____ Sodium hydroxide = _____ Thiamine = _____

Chem4Kids

Once you are finished, you may choose any site from the Kid Zone to explore!

Cobalamin = _____

TURN YOUR PAPER IN TO YOUR TEACHER BY THE END OF CLASS!
